

New Technology Workshops

Thursday 20th June 2019

Microsoft Technology Centre, London

Registration 10am | Start 10.30am | Finish 3.30pm

MIXED REALITY AND
MICROSOFT HOLOLENS

INTELLIGENT
AUTOMATION

The Disruptive Innovators Network and Microsoft are delighted to invite you to the Microsoft Technology Centre (MTC) offering members the opportunity to attend twin themed workshops to learn more about the potential of:

- ▶ Mixed Reality & Microsoft HoloLens
- ▶ Intelligent Automation and the Virtual Workforce

We have designed a custom workshop for housing professionals that includes a facilitated, hands-on environment for you and your colleagues to experience Microsoft's vision technology platforms and solutions.

The day will focus on how housing providers can digitally transform in several core areas by:

- ▶ Harnessing Azure Data & AI services.
- ▶ Using Microsoft Dynamics to deliver services using a Mixed Reality platform.
- ▶ Deploying Intelligent Automation to enhance your human workforce, provide an improved customer experience and additional capacity.

There will be an opportunity to learn from Microsoft, Hitachi and Thoughtonomy technology experts across these platforms including live demos and use of the Microsoft HoloLens.

Areas to be covered include:

- ▶ Data & AI: What is AI, why now & preparing your organisation for the journey
- ▶ Predicting analytics using Azure & Power BI
- ▶ How using Dynamics 365 for IOT data along with your Customer & Property Data can drive efficiencies, customer satisfaction and data driven decisions
- ▶ Mixed Reality: What is mixed reality, and how does remote assist work?
- ▶ Using HoloLens in real world situations – Case study Wandle HA
- ▶ Showcasing uses for the HoloLens for engineers
- ▶ How can automation be used to deliver value within the housing sector?
- ▶ How you can begin the journey, gain cultural buy in and design, test and scale in a rapid way
- ▶ How to build an internal automation team and strategic roadmap
- ▶ Manage internal process change and organisational and customer risk

To ensure maximum learning, places are limited to 20 delegates

Who should attend?

Anyone interested in exploring how new and emerging technologies can be deployed within their organisations and wants to see real world examples in practice will benefit from attending these workshops.

Cost
